About The Dominion Guild, Inc.

The purpose of The Dominion Guild, Inc. is to raise funds for distribution to qualifying projects and nonprofit organizations serving the Northern Virginia community. The Guild is a non-profit organization with status under Section 501(c)(3) of the Internal Revenue Service Code.

Established in 1986, The Guild has raised and distributed over \$1 million to more than 80 nonprofit organizations serving Northern Virginia. The primary vehicle for raising these funds is its annual Merry Market. The proceeds from this event are distributed to the community in the form of grants. Recent grants generally have ranged from \$5,000 - \$25,000, although smaller or larger grants are possible. It must be emphasized that individual grant award amounts AND the total amount of funds disbursed in one year are not determined until the fundraiser has occurred and its net proceeds are calculated. See the Timeline of Application and Funding section below for more detailed information.

Criteria for Funding

Funding applications for 2023 will be considered in the areas of health/medical care, affordable housing, food assistance, human services, education and the arts serving the Northern Virginia community. Both general operating support and project applications are eligible for consideration; multi-year requests are also eligible. The Guild expects that an organization will acknowledge The Guild's contribution in subsequent publicity and financial statements.

The Standing Rules of The Dominion Guild, Inc. state that projects chosen for funding must affect and serve the people of Northern Virginia, and they must:

1. evidence community need and strong possibilities of continued viability;
2. be of an appropriate size for The Guild's financial capabilities;
3. elicit membership interest and support;
4. have the potential for making a significant impact in the community.

Proposals will be evaluated according to the above criteria; in addition, the following factors will be considered:

1. The degree to which the application cost is justified by its purpose and projected outcomes;
2. Clarity and creativity of project design.
